No matter the weather - for the average Norwegian every day is the perfect day to be outdoors, as they are quite used to the weather. All designs in the Rabot 365 collection are high-tech and extremely robust, enabling the wearer to experience nature all year-round, regardless of weather conditions.

The collection, named after the French geographer and climber Charles Rabot, who explored northern Scandinavia at the end of the 19th century, was inspired by the DNT cabin of the same name in Hemnes, Norway.
