

## OSLO COLLECTION

# TIMELESS LIFESTYLE

### Casual design in concert with nature

Bergans of Norway starts the second winter with the successful Oslo collection. The sustainable Lifestyle Collection combines timeless fashion aspects with the functional and protective features of outdoor clothing. The line continues to impress with first-class hardshell materials and heat-insulating and mid layers in stylish designs. The Oslo collection also stands out because of its extensive use of sustainable fabrics, materials and production methods. All fabrics in the Oslo collection are PFAS-free, and the vast majority are bluesign® approved.

The collection name, Oslo, pays tribute to Norway's capital, which was named the "Green Capital of Europe 2019" by the European Commission.

### OSLO 3L W PONCHO (WOMEN)

A real eye-catcher and the perfect combination of style and function! The Oslo poncho looks great to wear either for a stroll through the city, or when cycling, and offers the perfect weather protection in rainy weather. A fashionable all-rounder that should belong to every woman's wardrobe.

Fabric: 3-layer Bergans element, waterproof and windproof

Weight: S 557 grams

Sizes: XS-L/XL

Sale price: € 250

### OSLO DOWN LIGHT JACKET (MEN)

The Oslo Down Light Jacket can be used throughout most of the year! Either solo in milder temperatures, or as a warming middle layer under a hardshell jacket. Due to its high quality down lining, the jacket creates a high thermal output and thanks to its windproof and water-repellent coating you will even survive slight rain showers. The high wool collar protects against rising winds and the two zippered pockets keep hands warm. A fashionable all-rounder that should belong in every wardrobe. Available in two great color combinations.

Fabric: 100% Polyamide (Nylon)

Filling material: Down 90/10, 700 cuin

Fill weight: 130 g

Sizes: S-XXL

Weight: Men L 680 g

Sale price: € 250
