

# IT'S GOING TO BE COLORFUL!

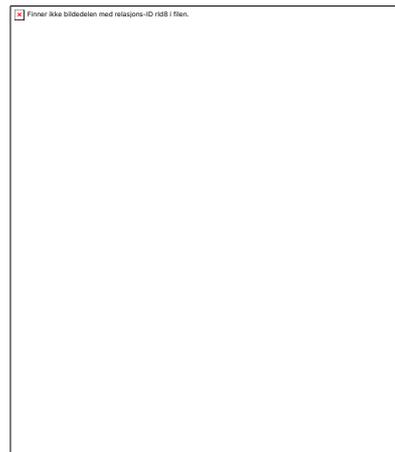

## Bergans brings color to the ski slopes

Bergans of Norway goes back to its roots with a range of colorful new styles for both on and off the slopes. The successful Standa Ski collection - Bergans' most sustainable ski collection ever - is also available in a hardshell version for the coming winter. The classic Oppdal ski jacket has had a successful "facelift" and the Myrkdalen jacket also has a new look. In addition, the Stranda collection includes two ski rucksacks and an 80L ski travel bag.

### STRANDA 2L JACKET

From next winter, a 3L hardshell design will also form part of the Stranda collection. The Bergans Element Active® membrane is windproof, waterproof (water column of at least 10,000 mm) and breathable. Thanks to its 4-way stretch, the jacket guarantees optimum freedom of movement. The high collar and removable snow guard provide optimal protection against cold snow, and it also has a Recco® reflector on the hood. The entire Stranda collection uses yarn made of recycled virgin material and spun yarn, and is dyed using the unique Spindye® process. This process consumes significantly lower amounts of water and chemicals, resulting in significantly lower energy consumption and CO2 emissions during the production process. By combining Spindye® dyeing technology with our extensive experience in the skiwear industry, we have discovered the perfect mix of performance and long-lasting durability and quality!

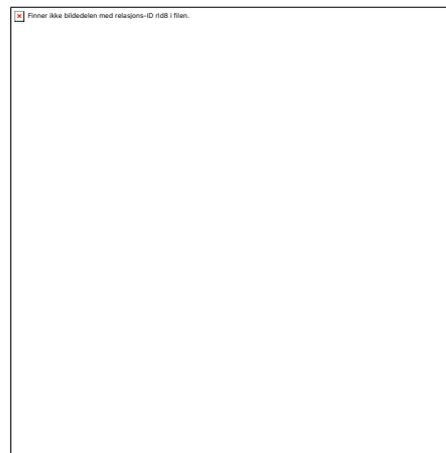

Fabric: Double-layered Bergans Element Active® (100 % recycled polyester)  
Sizes: Men S-XXL, Women XS-XL  
Weight: Men's L 810 g, Women's M 660 g  
Price: € 380.00

### OPPDAL 2L JACKET

Oppdal, the Bergans classic, presents itself in a new, fresh 3-color look. The double-layered ski jacket is ideal for medium to high intensity activities in demanding weather conditions. Designed with 4-way stretch for optimal freedom of movement, pit zips under the arms, Recco® reflector, adjustable helmet-compatible hood, pre-shaped elbow and removable snow guard. Both the outside of the jacket and the lining are bluesign® approved.

Fabric: Double-layered Bergans Element Active® (83 % polyester/17% elastane)  
Sizes: Men S-XXL, Women XS-XL  
Weight: Men's L 960 g, Women's M 780 g

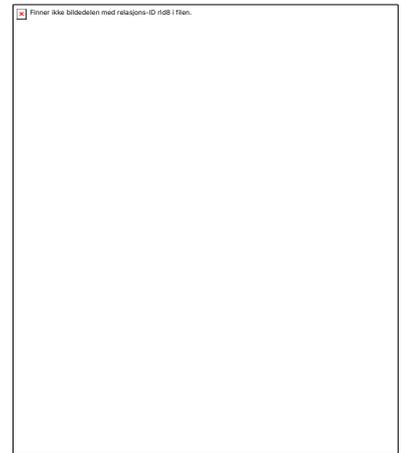

Price: € 300.00

## MYRKDALEN INSULATED LADY JACKET

This color combination is not to be ignored. The longer cut Myrkdalen jacket is ideal for freeriding, yet also looks great on the slopes. Designed with a 2-layer Dermizax membrane and Bergans ArticInsulation, it keeps you dry and warm, whilst allowing optimal freedom of movement thanks to its 2-way stretch. Additional equipment features: Pit zips under the arms, adjustable, helmet-compatible hood, 2-way zip, Recco® reflector, pre-formed elbow sections, removable snow skirt. The perfect choice for a great day out skiing!

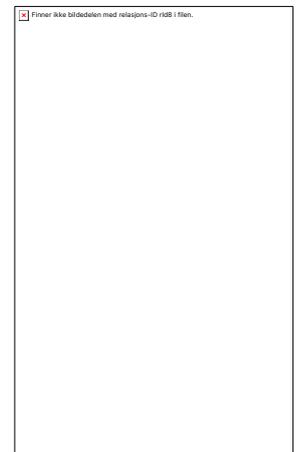

Fabric: Double-layered Dermizax® (100 % polyester). Outer material bluesign® approved  
Isolation: 60g/m2  
Sizes: Men S-XXL, Women XS-XL  
Weight: Men's L 910 g, Women's M 825 g  
Price: € 350.00

## HAFSLO INSULATED PANTS

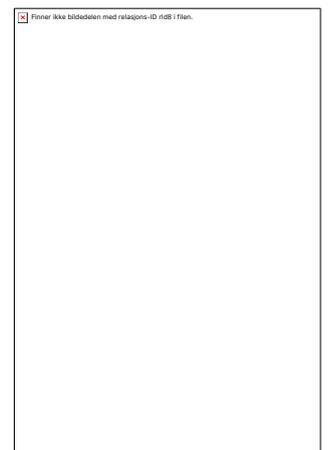

Whether lined or unlined - there are also Hafslo Pants to match the Mykdalen Jacket, which can also be combined with the jacket to create a practical one-piece. These cargo style technical trousers are made of a soft, comfortable material. Thanks to Dermizax® they are natural waterproof, wind tight and breathable. Bergans ArticInsulation lining ensures pleasant heat retention. Additional equipment features: Ventilation zips on the thighs, fixed gaiters, two front pockets and two thigh pockets, Recco® reflector, velcro closure at the waist, belt loops and pre-formed knees.

Fabric: Double-layered Dermizax® (100 % polyester). Outer material bluesign® approved  
Isolation: 60g/m2  
Sizes: Men S-XXL, Women XS-XL  
Weight: Men's L 855 g, Women's M 780 g  
Price: € 280.00

## STRANDA 26 AND STRANDA W24 PACK

The ultimate skiing rucksack. The new Stranda Rucksack is light and compact, without sacrificing functionality and detail, and is designed with a very comfortable carrying system. The ventilated, snow-repellent back ensures it is extremely comfortable to wear. The spacious main section, with lots of compartments,

provides ample space for avalanche protection equipment, such as shovel and probe, and everything else you need when skiing. Skis can be attached diagonally onto the Stranda Rucksack. Made out of 100% recycled polyester and is environmentally-friendly thanks to the Spindye® dyeing technique.

Fabric: Recycled polyester 450D

Size: Men's 26L, Women's 24L

Weight: Men's 570 g, Women's 560 g

Price: € 100.00
